Compare Xcitium to Crowdstrike

Features Breakdown

CROWDSTRIKE

EPP Capabilities		
Signature-based anti-malware protection	~	~
Machine learning/algorithmic file analysis on the endpoint	✓	×
Machine learning for process activity analysis	✓	~
Process isolation Memory protection and exploit prevention	<u> </u>	~
Protection Against Undetected Malware	✓	×
Application whitelisting	 ✓ 	~
Local endpoint sandboxing/endpoint emulation	✓	×
Script, PE, or fileless malware protection Integration with on-premises network/cloud sandbox		× ×
Real-time IoC search capabilities	~	~
Retention period for full access to data	No limit	30 days
Endpoint Firewall FW Learning Mode	<u> </u>	× ×
Automatically creates network traffic rules	✓	×
URL Filtering	 ✓ 	×
Host Based IPS	✓	×
USB device Control Full Device Control (Device Control based on Device Class product ID, Vendor ID and Device Name)	<u> </u>	× ×
Agent self-protection/remediation or alerting when there is an attempt to disable, bypass, or uninstall it	~	~
Ransomware protection Protect/block ransomware when "Offline" or "Disconnected"	✓	~
from the internet?	<u> </u>	×
Manage, and maintain, an application control database of known "trusted" applications?	<u> </u>	~
Multi-tenant cloud based service	~	~
EPP management console available as an on-premises virtual or physical server/application	~	×
Consolidated EPP management console to report on, manage, and alert for Windows macOS clients and mobile	~	×
Data loss prevention Mobile Device Management		×
Mobile threat Defense	✓	×
Vulnerability and patch management	 ✓ 	Vulnerability Management (
Network/Cloud sandboxing	Cloud Sandbox	×
Security Orchestration, Analysis and Response (SOAR) Integration	✓	✓ ✓
Network discovery tool Remote Access	~	×
Remote scripting capabilities	<u> </u>	×
Default Deny & ZeroThreat Virtualization		
Default Deny Security with Default Allow Usability	✓	×
Run unknown files with ZeroThreat Virtualization Protection	 ✓ . 	×
Create Virtual environment for any unknowns Virtualize file system, registry, COM on real endpoints	✓	×
EDR		· ·
Telemetry (observables)		
Interprocess Memory Access	 ✓ 	~
Windows/WinEvent Hook	<u> </u>	~
Device Driver Installations File Access/Modification/Deletion		~
Registry Access/Modification/Deletion	✓	
Network Connection	✓	~
URL Monitoring	✓	~
DNS Monitoring Process Creation	<u> </u>	
Thread Creation		
Inter-Process Communication (Named Pipes, etc) up to this	~	~
Telemetry data itself can be extended in real time	 ✓ 	×
Event chaining and enrichment on the endpoints	√	×
Detection/Hunting/Reporting Adaptive Event Modelling		×
Behavioral analysis (e.g. analysis over active memory, OS activity user behavior, process/application behavior, etc.)	✓	~
Static analysis of files using capabilities such as machine learning (not including signature based malware detection)	 ✓ 	~
Time-series analysis	✓	×
Integration with automated malware analysis solutions (sandboxing) Threat Hunting interface or API for searching with	Yes without Yara	
YARA/REGEX/ElasticSearch/IOC Support for matching against private IOC		IOC / Regex
Threat Intelligence integration (TIP, upload, webservice connector, etc) to enrich and contextualize alerts	✓	~
Linking telemetry (observable data) to recreate a sequence of events to aid investigation	✓	~
Process/attack visualization	✓	~
Incident Response Platform (IRP) or orchestration integration? Vulnerability reporting (ex. reporting on unpatched CVEs)	<u> </u>	
Alert prioritization based on confidence, able to define thresholds for alerting.		~
Alert prioritization factors system criticality	~	~
Able to monitor risk exposure across environment organized by logical asset groups	 ✓ 	~
Reporting interface identifies frequent alerts that may be appropriate for automating response		
	~	*
Response Remote scripting capabilities	✓ 	✓ ×
Response Remote scripting capabilities Quarantine and removal of files		✓ × ✓
Remote scripting capabilities		✓ × ✓
Remote scripting capabilities Quarantine and removal of files	✓ ✓ ✓	✓ × ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation	✓ ✓ ✓ ✓	× × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting	✓ ✓ ✓ ✓	× × × × × × × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation	✓ ✓ ✓ ✓	✓ × ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting	✓ ✓ ✓ ✓	
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting	✓ ✓ ✓ ✓	✓ × ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support)	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints Live remote inspection Tuning of monitoring rules for reduction of false positives	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints Live remote inspection Tuning of monitoring rules for reduction of false positives Forensic analysis	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints Inving of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints Live remote inspection Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints Inving of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Customizable policy creation Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (AI support)	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (AI support) Available as virtual or physical Integrated file analysis (cloud sandbox)		✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (AI support) Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTPS, NTLM, etc. w/full decoding capability		✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (AI support) Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Prutocol analyzers for 40+ different protocols such as TCP, UDP		 ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × ×<
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (Al support) Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability		 ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × ×<
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. wirfull decoding capability Managed cloud		
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (Al support) Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365		✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Managed endpoints Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Central monitoring of all endpoints Tuning of monitoring rules for reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Integrated file analysis (cloud sandbox) Preture tintelligence integration Network profiling (AI support) Managed cloud Integrated file analysis (cloud sandbox) Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365		✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365		✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Managed endpoints Managed customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Forensic analysis Forensic analysis Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (Al support) Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Google Cloud Platform <td></td> <td>✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×</td>		✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Customizable policy creation Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Integrated file analysis (cloud sandbox) Privency tripping (AI support) Network profiling (AI support) Cloud-based SIEM and Big Data Analytics Log data collection/correlation Intreat intelligence integration Network profiling (AI support) Network profiling (AI support) Protocol analysis (cloud sandbox) Pull packet capture Protocol analysers for 40+ different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Managed cloud Paltfor		✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (AI support) Network profiling (AI support) Network profiling (AI support) Network profiling (AI support) Protocol analyzes for 40+ different protocols such as TCP. UDP DNS, D/C, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365 AWS <t< td=""><td></td><td>✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×</td></t<>		✓ ✓ ✓ ✓ ✓ ✓ ✓ × × × × × × × × × × × × ×
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Managed customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Central monitoring of all endpoints Ive remote inspection Tuning of monitoring rules for reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Proteool analyzers for 40-different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for 40-different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365 AWS Threat detection for cloud applications L		 <
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Threat intelligence integration Network profiling (AI support) Network profiling (AI support) Network profiling (AI support) Network profiling (AI support) Protocol analyzes for 40+ different protocols such as TCP. UDP DNS, D/C, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365 AWS <t< td=""><td></td><td> ✓ ✓ ✓ ✓ ✓ ✓ ✓ × ×<</td></t<>		 ✓ ✓ ✓ ✓ ✓ ✓ ✓ × ×<
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Memory snapshotting Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Cloud-based SIEM and Big Data Analytics Forensic analysis Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Integrated file analysis (cloud sandbox) Protocol analyzers for 40+ different protocols such as TCP, UDP PNS, DHCP, HTTP, HTTPS, NLM, etc. w/full decoding capability Maraged cloud Full packet capture POSC Cloud Platform Orfice 365 AWS Orfice 365 AWS Threat detection from cloud environments Cloud cloud Platform Office 365 AWS Threat intelligence and Verdict Haraged cloud		* *
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Momory snapshotting Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Customizable policy or reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for AD- different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Includes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 365 AWS Threat intelligence and verdictions Threat intelligence and verdictions Interdatection for cloud applications Full packet capture Protocol analyzers for AD- different protocols such as TCP, UDP DNS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud In		* *
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Pilesystem snapshotting Memory snapshotting Manage customer endpoints and policies Incident investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Customizable policy creation Forensic analysis Porenet inspection Tuning of monitoring rules for reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Log data collection/correlation Network profiling (AI support) Available as virtual or physical Integrated file analysis (cloud sandbox) Protocol analyzers for 40+ different protocols such as TCP, UDP Dhs, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capabilitican Azure Google Cloud Platform Office 365 Awis Threat intelligence and verdictions Office 365 Ause Google Cloud Platform Diddes ready-to-use cloud applications Cloud-based Siem for cloud applications Cloud Siem for cloud applications Cloud Cloud Platform		* *
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Managed endpoints Managed customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Cube and state analysis Managed network Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Network profiling (Al support) Available as virtual or physical Integrated file analysis (cloud sandbox) Full packet capture Protocol analyzers of 040 different protocols such as TCP, UOP DNS, DHCP, HTP, NTTP, NTLM, etc. w/full decolucy apabilication Orfice S65 AWS Threat intelligence and Verdict Cog collection from cloud environments Google Cloud Platform Orfice S65 AWS <td></td> <td></td>		
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Memory snapshotting Manage customer endpoints and policies Incident investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Contral monitoring of all endpoints Inning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Log data collection/correlation Network profiling (Al support) Network profiling (Al support) <td></td> <td></td>		
Remote scripting capabilities Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem snapshotting Managed andpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Managed network Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Intregrated file analysis (cloud sandbox) Full packet capture Protocol analyzers for AD+ different protocols such as TCP, UDP DMS, DHCP, HTTP, HTTPS, NTLM, etc. w/full decoding capability Managed Cloud Inteldes ready-to-use cloud application connectors for: Azure Google Cloud Platform Office 385 Auws Threat intelligence and Verdict Holistic security approach Combined network, endpoint, cloud application I		
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Pilesystem snapshotting Manage endpoints Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Customizable policy creation Cloud-based SIEM and Big Data Analytics Network profiling (Al support) Available as virtual or physical Integrated file analysis (cloud sandbox) Protocol analyzers for 40+ different protocols such as TCP, UDP DNS, DLCP, HTTP, HTTPS, NTLM, etc. w/full decoding capabilitation Azure Google Cloud Platform Office 355 AWS Threat detection for cloud application connectors for: Azure Google Cloud Platform <td></td> <td></td>		
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Rill processes remotely File retrieval Network isolation Filesystem snapshotting Manage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (Al support) Customizable policy creation Customizable policy creation Customizable policy creation Customizable policy creation Cloud-based SIEM and Big Data Analytics Integrated file analysis (cloud sandbox) Puil packet capture Protocol analyters for 704 offfrenent protocols such as TCP. UDP DNS, DHCP, HTTPS, NTLM, etc. w/fuil decoding capability Managed cloud Fuil packet capture Protocol analyters for 704 offfrenent protocols such as TCP. UDP DNS, DHCP, HTTPS, NTLM, etc. w/fuil decoding capability Managed cloud Integrated file analysis (cloud application connectors for: <tr< td=""><td></td><td></td></tr<>		
Remote scripting capabilities Quarantine and removal of files Quarantine and removal of files Kill processes remotely File retrieval Network isolation Filesystem enapshotting Mamage customer endpoints and policies Incident Investigation & Response Preemptive containment Application profiling (AI support) Customizable policy creation Tuning of monitoring rules for reduction of false positives Forensic analysis Cloud-based SIEM and Big Data Analytics Cloud-based SIEM and Big Data Analytics Integrated file analysis (cloud sandbox) Full packet capture Protoce analytiser for 40- offferent protocols such as TCP. UDP DNS, DHCP, HTTPS, NTLM, etc. w/full decoding capability Managed cloud Full packet capture Protoce analysis Google Cloud Platform Includes ready-to-use cloud application connectors for:		

About Xcitium

Xcitium, formerly known as Comodo Security Solutions, is used by more than 3,000 organizational customers & partners around the globe. Founded with one simple goal to put an end to cyber breaches, Xcitium's patented 'ZeroThreat' technology uses Kernel API Virtualization to isolate and remove threats like zero day malware & ransomware before they cause any damage. ZeroThreat is the cornerstone of Xcitium's endpoint suite which includes advanced endpoint protection (AEP), endpoint detection & response (EDR), and managed detection & response (MDR). Since inception, Xcitium has a zero breach track record when fully configured.
